- Ever grain Brewing Company

# Is this the right place for you?

## We may be a good fit if……

- You are looking to be based at one site for most of the year.
- Teaching hospital, opportunities to interact with residents.
- Chance to work with different providers during a single rotation.

## Food for thought……

- Psychiatry clerkship is not offered at this site. You will need to go to Altoona.
- Is driving to sites going to be a problem? e.g. Family Medicine clerkship is at UPMC ambulatory sites in Central PA: Distance of sites from Harrisburg Hospital ranges from approximately 5 to 45 miles.
